## Full conductor's programme!

The festival EUROPA CANTAT XVII offers a full programme for choral conductors, from beginners up to advanced conductors. If you come with your choir, please join the conductors' programme while your singers are in their atelier(s). You can also come on your own, as a 'single conductor'. You will meet colleagues from many countries to share your experiences with.

It is for the first time that the EUROPA CANTAT festival has a conductor's curriculum for the whole length of the festival, parallel to the singer's ateliers (see page 12).

## Inspiring seminars

These seminars include lectures, reading sessions and demonstrations by colleagues from all over the world. Subjects of the seminars will be:

- **repertoire:** interpreting early music; jazz for choirs; worldwide choral repertoire; and many other topics
- **conducting:** rehearsal techniques; making exciting choral programmes; reaching out to the audience; exploiting new media and other topics
- **choral sound:** warming up; singing in tune; and many other topics.

## Study Tour (also see page 25)

Where can you better experience your colleagues and their working methods than here, in this festival? There are 35 of them, working at the same time! Every morning we will make visits to some ateliers and evaluate what we have seen. Some seminars take place at the same time as the Study Tour and each day you can decide what you are heading for.

If you register for participation into the conductors' programme, you can sign up for the whole festival or for a couple of days. You can also buy one-day tickets if you just want to get a taste of the festival for one or more days. One-day participants can register on the morning of their participation or in advance.

The detailed programme of these seminars will be published on the festival website in October 2008 (see [www.ecu2009.nl](http://www.ecu2009.nl))
